

A blue and yellow striped rug serves as the background. In the upper left, a woven basket with a yellow and blue handle contains a ball of white yarn, a ball of dark blue yarn, a small grey stuffed animal with a blue bow, and a small blue and white polka-dot bag. In the lower left, a clear glass jar filled with red buttons sits on the rug, with several red buttons scattered around it. The jar's lid has the 'ADAM CARPETS' logo.

Stripes

Introducing three new stripe ranges each offering 6 exciting colourways

Stripes are a timeless, smart pattern that are loved by all. Be confident and bring stripes into your home as they mix brilliantly with plains, florals, and many other patterns. Stripes can be used just about anywhere.

Adding stripes to a room is the easiest way to transform a space. At the same time this classic pattern will carry a room through décor changes as the years go by.

Our Stripes have been created with multiple complementary hues, so you have lots of options for wall and fabric colours. We offer stripes that are empathetic and blend into their surroundings in any room, others we believe will add excitement and fun to your home!

Whilst visually striking, striped carpets are great for more than just their appearance. Stripes can help create an illusion of making a space appear larger than it is, elongating or widening a room.

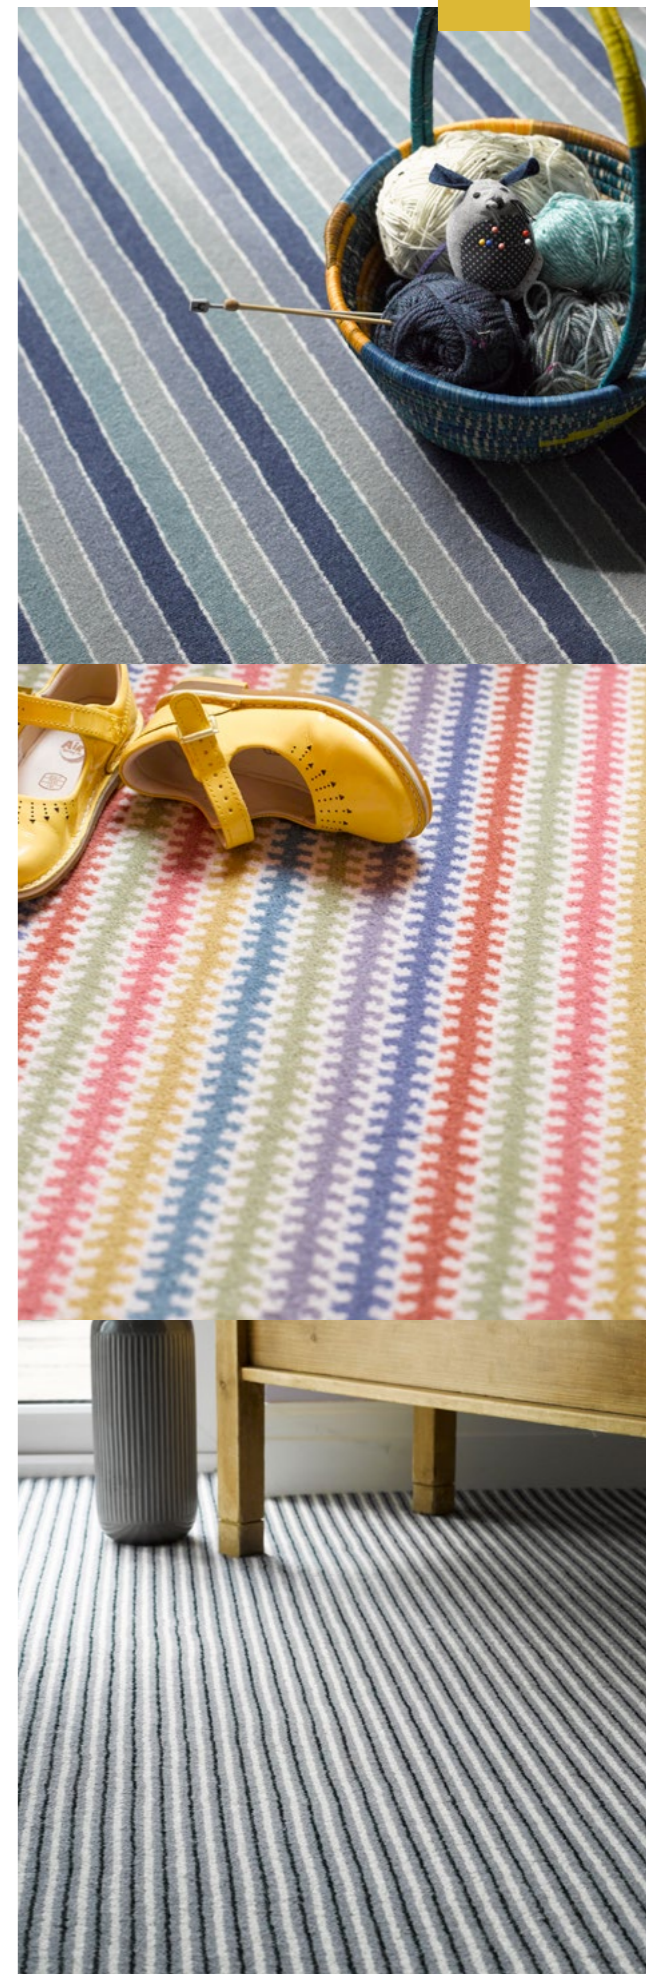

Stripes are great for high traffic areas such as halls, stairs and landings, drawing your eye away from any marks or blemishes. Our use of twist and velvet yarns together means that our product offers practical construction stability as well as a sophisticated look.

Adam Carpets have a vast palette of plain twist colours which complement the new stripes beautifully. In the index you will find a selection of these for each stripe. These options we hope will allow you to create a wonderful flowing theme throughout your home.

Carpet samples are available through our website free of charge. So have a wonderful, fun experience transforming a space in your home!
